5.5. New Standards, amendments to standards and interpretations

Certain new standards, amendments to standards and interpretations have been issued that are mandatory for periods beginning during the current financial year and subsequent years. The Group's evaluation of the effect of these new standards, amendments to standards and interpretations is as follows:

Standards and Interpretations effective for the current financial period

IAS 32 (Amendment) "Financial Instruments: Presentation"

This amendment to the application guidance in IAS 32 clarifies some of the requirements for offsetting financial assets and financial liabilities on the statement of financial position.

Group of standards on consolidation and joint arrangements

The IASB has published five new standards on consolidation and joint arrangements: IFRS 10, IFRS 11, IFRS 12, IAS 27 (amendment) and IAS 28 (amendment). The main provisions are as follows.

IFRS 10 "Consolidated Financial Statements"

IFRS 10 replaces all of the guidance on control and consolidation in IAS 27 and SIC 12. The new standard changes the definition of control for the purpose of determining which entities should be consolidated. This definition is supported by extensive application guidance that addresses the different ways in which a reporting entity (investor) might control another entity (investee). The revised definition of control focuses on the need to have both power (the current ability to direct the activities that significantly influence returns) and variable returns (can be positive, negative or both) before control is present. The new standard also includes guidance on participating and protective rights, as well as on agency / principal relationships.

IFRS 11 "Joint Arrangements"

IFRS 11 provides for a more realistic reflection of joint arrangements by focusing on the rights and obligations of the arrangement, rather than its legal form. The types of joint arrangements are reduced to two: joint operations and joint ventures. Proportional consolidation of joint ventures is no longer allowed. Equity accounting is mandatory for participants in joint ventures. Entities that participate in joint operations will follow accounting much like that for joint assets or joint operations today. The standard also provides guidance for parties that participate in joint arrangements but do not have joint control.

IFRS 12 "Disclosure of Interests in Other Entities"

IFRS 12 requires entities to disclose information, including significant judgments and assumptions, which enable users of financial statements to evaluate the nature, risks and financial effects associated with the entity's interests in subsidiaries, associates, joint arrangements and unconsolidated structured entities. An

entity can provide any or all of the above disclosures without having to apply IFRS 12 in its entirety, or IFRS 10 or 11, or the amended IAS 27 or 28.

IAS 27 (Amendment) “Separate Financial Statements”

This standard is issued concurrently with IFRS 10 and together, the two IFRSs supersede IAS 27 “*Consolidated and Separate Financial Statements*”. The amended IAS 27 prescribes the accounting and disclosure requirements for investment in subsidiaries, joint ventures and associates when an entity prepares separate financial statements. At the same time, the Board relocated to IAS 27 requirements from IAS 28 “*Investments in Associates*” and IAS 31 “*Interests in Joint Ventures*” regarding separate financial statements.

IAS 28 (Amendment) “Investments in Associates and Joint Ventures”

IAS 28 “*Investments in Associates and Joint Ventures*” replaces IAS 28 “*Investments in Associates*”. The objective of this standard is to prescribe the accounting for investments in associates and to set out the requirements for the application of the equity method when accounting for investments in associates and joint ventures, following the issue of IFRS 11.

IFRS 10, IFRS 11 and IFRS 12 (Amendment) “Consolidated financial statements, joint arrangements and disclosure of interests in other entities: Transition guidance”

The amendment to the transition requirements in IFRSs 10, 11 and 12 clarifies the transition guidance in IFRS 10 and limits the requirements to provide comparative information for IFRS 12 disclosures only to the period that immediately precedes the first annual period of IFRS 12 application. Comparative disclosures are not required for interests in unconsolidated structured entities.

IFRS 10, IFRS 12 and IAS 27 (Amendment) “Investment entities”

The amendment to IFRS 10 defines an investment entity and introduces an exception from consolidation. Many funds and similar entities that qualify as investment entities will be exempt from consolidating most of their subsidiaries, which will be accounted for at fair value through profit or loss, although controlled. The amendments to IFRS 12 introduce disclosures that an investment entity needs to make.

IAS 36 (Amendment) “Recoverable amount disclosures for non-financial assets”

This amendment requires: a) disclosure of the recoverable amount of an asset or cash generating unit (CGU) when an impairment loss has been recognised or reversed and b) detailed disclosure of how the fair value less costs of disposal has been measured when an impairment loss has been recognised or reversed. Also, it removes the requirement to disclose recoverable amount when a CGU contains goodwill or indefinite lived intangible assets but there has been no impairment.

IAS 39 (Amendment) “Financial Instruments: Recognition and Measurement”

This amendment will allow hedge accounting to continue in a situation where a derivative, which has been designated as a hedging instrument, is novated to effect clearing with a central counterparty as a result of laws or regulations, if specific conditions are met.

Standards and Interpretations effective for subsequent periods***IAS 19 Revised (Amendment) “Employee Benefits” (effective for annual periods beginning on or after 1 July 2014)***

These narrow scope amendments apply to contributions from employees or third parties to defined benefit plans and simplify the accounting for contributions that are independent of the number of years of employee service, for example, employee contributions that are calculated according to a fixed percentage of salary. These amendments have not yet been endorsed by the EU.

Annual Improvements to IFRSs 2012 (effective for annual periods beginning on or after 1 July 2014)

The amendments set out below describe the key changes to seven IFRSs following the publication of the results of the IASB’s 2010-12 cycle of the annual improvements project. The improvements have not yet been endorsed by the EU.

IFRS 2 “Share-based payment”

The amendment clarifies the definition of a ‘vesting condition’ and separately defines ‘performance condition’ and ‘service condition’.

IFRS 3 “Business combinations”

The amendment clarifies that an obligation to pay contingent consideration which meets the definition of a financial instrument is classified as a financial liability or as equity, on the basis of the definitions in IAS 32 “Financial instruments: Presentation”. It also clarifies that all non-equity contingent consideration, both financial and non-financial, is measured at fair value through profit or loss.

IFRS 8 “Operating segments”

The amendment requires disclosure of the judgements made by management in aggregating operating segments.

IFRS 13 “Fair value measurement”

The amendment clarifies that the standard does not remove the ability to measure short-term receivables and payables at invoice amounts in cases where the impact of not discounting is immaterial.

IAS 16 “Property, plant and equipment” and IAS 38 “Intangible assets”

Both standards are amended to clarify how the gross carrying amount and the accumulated depreciation are treated where an entity uses the revaluation model.

IAS 24 “Related party disclosures”

The standard is amended to include, as a related party, an entity that provides key management personnel services to the reporting entity or to the parent of the reporting entity.

Annual Improvements to IFRSs 2013 (effective for annual periods beginning on or after 1 July 2014)

The amendments set out below describe the key changes to four IFRSs following the publication of the results of the IASB’s 2011-13 cycle of the annual improvements project. The improvements have not yet been endorsed by the EU.

IFRS 3 “Business combinations”

This amendment clarifies that IFRS 3 does not apply to the accounting for the formation of any joint arrangement under IFRS 11 in the financial statements of the joint arrangement itself.

IFRS 13 “Fair value measurement”

The amendment clarifies that the portfolio exception in IFRS 13 applies to all contracts (including non-financial contracts) within the scope of IAS 39/IFRS 9.

IAS 40 “Investment property”

The standard is amended to clarify that IAS 40 and IFRS 3 are not mutually exclusive.

IFRS 9 “Financial Instruments”

IFRS 9 replaces part of IAS 39 which deals with the classification and measurement of financial assets and financial liabilities. The IASB (“International Accounting Standards Board”) intends to expand IFRS 9 in subsequent phases. The Group is currently investigating the impact of IFRS 9 on its financial statements. The Group cannot currently early adopt IFRS 9 as it has not been endorsed by the EU.

IFRS 9 “Financial Instruments: Hedge accounting and amendments to IFRS 9, IFRS 7 and IAS 39”

The IASB has published IFRS 9 Hedge Accounting, the third phase of its replacement of IAS 39 which establishes a more principles-based approach to hedge accounting and addresses inconsistencies and weaknesses in the current model in IAS 39. The second amendment requires changes in the fair value of an entity’s debt attributable to changes in an entity’s own credit risk to be recognised in other comprehensive income and the third amendment is the removal of the mandatory effective date of IFRS 9. These amendments have not yet been endorsed by the EU.

IFRS 7 (Amendment) “Financial Instruments: Disclosures”

The amendment requires additional disclosures on transition from IAS 39 to IFRS 9. The amendment has not yet been endorsed by the EU.

IFRIC 21 “Levies” (effective for annual periods beginning on or after 1 January 2014)

This interpretation sets out the accounting for an obligation to pay a levy imposed by government that is not income tax. The interpretation clarifies that the obligating event that gives rise to a liability to pay a levy (one of the criteria for the recognition of a liability according to IAS 37) is the activity described in the relevant legislation that triggers the payment of the levy. The interpretation could result in recognition of a liability later than today, particularly in connection with levies that are triggered by circumstances on a specific date. This interpretation has not yet been endorsed by the EU.

IFRS 11 (Amendment) “Joint Arrangements” (effective for annual periods beginning on or after 1 January 2016)

The amendment requires from an investor to apply the acquisition method for the acquisition of an interest in a joint operation that constitutes a business. The amendment has not yet been endorsed by the EU.

Amendment to IAS 16 and IAS 38 “Clarification of acceptable methods depreciation and amortization” (effective for annual periods beginning on or after 1 January 2016)

This amendment clarifies that the use of revenue-based methods to calculate the depreciation of an asset is not appropriate and it also clarifies that revenue is generally presumed to be an inappropriate basis for measuring the consumption of the economic benefits embodied in an intangible asset. The amendment has not yet been endorsed by the EU.

IFRS 15 “Revenue from Contracts with Customers” (effective for annual periods beginning on or after January 1, 2017)

The objective of the standard is to provide a single, comprehensive revenue recognition model for all contracts with customers to improve comparability within industries, across industries, and across capital markets. It contains principles that an entity will apply to determine the measurement of revenue and timing of when it is recognised. The underlying principle is that an entity will recognise revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. The standard has not yet been endorsed by the EU.

Announcement regarding plenary of Hellenic Council of State decision in relation to OPAP's exclusive right to conduct games of chance.

On 03.10.2014, the Plenary of the Hellenic Council of State, after a long legal procedure, issued two decisions by which it is considered unquestionably that OPAP's exclusive right to organize gambling games is totally in line with European Union's law. This development strongly confirms the relevant choices of Greek state and the standing positions of OPAP S.A. while shielding the legal interests of the company.

The Council of State based its judgment on the undeniable fact that the Greek regulatory framework concerning the conduct of OPAP S.A. games is very strict and consistent, due to both the wholly enhanced regulatory and audit mechanisms of the independent gaming authority and the substantive limitations that have been set to fight effectively relevant crime and illegal money trading as well as protection of vulnerable groups of people from addictions. These decisions are irrevocable and no appeal can be raised against them before a National or EU Court.

In full compliance with the law and jurisprudence set by the Council of State, OPAP SA will continue its long lasting contribution to the Greek society focusing imperturbably to strict, consistent and responsible gaming, giving at the same time particularly significant financial benefits to the Greek State.
