Space Hellas Group leads digital transformation with award-winning projects of high value

The **Space Hellas Group of Companies** received notable distinctions at the **BITE Awards 2025**, underscoring the significance of the projects it undertakes and its contributions to society, the economy, and sustainable development. These awards validate the expertise, innovation, and excellence demonstrated by the Group's companies – **Space Hellas, SingularLogic, and SenseOne**. Furthermore, they underscore the companies' prominent position in the domains of digital innovation and digital transformation.

Space Hellas has been awarded for its significant contributions to landmark projects that enhance national security and strengthen critical infrastructure. These include the development of the new **meteorological Radar network and Nowcasting infrastructure for the Hellenic National Meteorological Service (HNMS)**, enabling more accurate weather forecasting; the **expansion of the National Meteorological Stations Network**, which serves as an early-warning shield against natural disasters; and the **upgrade of network and IP telephony equipment at the Municipality of Athens**, achieving economies of scale at all organizational levels, while offering municipal employees a contemporary work environment and enhancing services for citizens.

SingularLogic was awarded for the **Postal Voting project of the Ministry of Interior**, which facilitated the participation of over 200,000 citizens, including approximately 50,000 residing abroad, in the 2024 European Elections, with transparency, security, and accessibility, marking a historic milestone for participatory democracy in Greece. Furthermore, **SingularLogic** has been honored with an award for the implementation of **SenseOne's EnergySense energy monitoring solution at EKO SA**, a member of the HELLENIQ ENERGY Group, across more than 216 facilities. The project resulted in a 27% reduction in electricity consumption, actively supporting the company's green transition and strategic sustainability goals.

Mr. **Spyros Manolopoulos**, Executive Chairman of Space Hellas Group, stated: "*These distinctions signify the Group's unwavering commitment to executing projects that enhance security, transparency, and sustainable development. Guided by expertise, innovation, and excellence, we remain dedicated to supporting the State, businesses, and citizens through digital transformation projects that yield tangible value.*"
